Live Conference Call to be Held at 8:00 PM U.S. Eastern Time on November 14, 2022

BEIJING, China, November 15, 2022 — Phoenix New Media Limited (NYSE: FENG) ("Phoenix New Media", "ifeng" or the "Company"), a leading new media company in China, today announced its unaudited financial results for the third quarter ended September 30, 2022.

Mr. Shuang Liu, CEO of Phoenix New Media, commented, "The third quarter of 2022 remained a challenging one for our ad business due to weak advertising demand caused by the macroeconomic environment and COVID-19 outbreaks. Nevertheless, we remained committed to strengthening our media influence through breaking news coverage and organizing events, while continuing to upgrade our products, enrich our content offerings, and seize monetization opportunities. Going forward, we will remain prudent in evaluating business initiatives, align our business with shifting industry dynamics, and build our brand differentiation through consistent delivery of content with high value."

Mr. Edward Lu, CFO of Phoenix New Media, further stated, "Our topline came under increased pressure this quarter due to the macro headwinds. While we remain dedicated to expanding our media presence and diversifying our revenue streams, we are working to align resources to profits, sharpening focus on a clear set of priorities. We believe that our continuous endeavors will sustain us through these adversities and prepare us to achieve a better margin recovery in the future."

Third Quarter 2022 Financial Results

REVENUES

Total revenues in the third quarter of 2022 decreased by 20.4% to RMB194.8 million (US\$27.4 million) from RMB244.6 million in the same period of 2021, primarily due to the year-over-year decline in the Company's net advertising revenues.

Net advertising revenues in the third quarter of 2022 decreased by 20.4% to RMB172.4 million (US\$24.2 million) from RMB216.6 million in the same period of 2021, mainly due to the reduction in advertising spending of advertisers from certain industries, the intensified industry-wide competition and the negative impact of the COVID-19 outbreak in certain regions in China in the third quarter of 2022.

Paid services revenues in the third quarter of 2022 decreased by 20.0% to RMB22.4 million (US\$3.2 million) from RMB28.0 million in the same period of 2021. Revenues from paid contents in the third quarter of 2022 decreased by 47.0% to RMB8.0 million (US\$1.1 million) from RMB15.1 million in the same period of 2021, mainly due to the reduction in the content spending of certain customers. Total operating expenses in the third quarter of 2022 decreased by 65.3% to RMB102.9 million (US\$14.5 million) from RMB296.2 million in the same period of 2021, primarily attributable to the decrease in general and administrative expenses as the Company recognized RMB140.4 million of allowance for credit losses in the third quarter of 2021 related to the entire amount of accounts receivable and notes receivable from Evergrande Group and did not recognize such loss in the third quarter of 2022, as well as the decrease in other operating expenses as a result of the strict cost control measures.

Use of Non-GAAP Financial Measures

To supplement the consolidated financial statements presented in accordance with the United States Generally Accepted Accounting Principles ("GAAP"), Phoenix New Media Limited uses non-GAAP gross profit, non-GAAP gross margin, non-GAAP income or loss from operations, non-GAAP operating margin, non-GAAP net income or loss attributable to Phoenix New Media Limited, non-GAAP net margin and non-GAAP net income or loss per diluted ADS, each of which is a non-GAAP financial measure. Non-GAAP gross profit is gross profit excluding share-based compensation. Non-GAAP gross margin is non-GAAP gross profit divided by total revenues. Non-GAAP income or loss from operations is income or loss from operations excluding share-based compensation. Non-GAAP operating margin is non-GAAP income or loss from operations divided by total revenues. Non-GAAP net income or loss attributable to Phoenix New Media Limited is net income or loss attributable to Phoenix New Media Limited excluding share-based compensation, income or loss from equity method investments, net of impairment, fair value changes in investments, net, gain on disposal of available-for-sale debt investments, and impairment of available-for-sale debt investments. Non-GAAP net margin is non-GAAP net income or loss attributable to Phoenix New Media Limited divided by total revenues. Non-GAAP net income or loss per diluted ADS is non-GAAP net income or loss attributable to Phoenix New Media Limited divided by weighted average number of diluted ADSs. The Company believes that separate analysis and exclusion of the aforementioned non-GAAP to GAAP reconciling items add clarity to the constituent parts of its performance. The Company reviews these non-GAAP financial measures together with the related GAAP financial measures to obtain a better understanding of its operating performance. It uses these non-GAAP financial measures for planning, forecasting and measuring results against the forecast. The Company believes that using these non-GAAP financial measures to evaluate its business allows both management and investors to assess the Company's performance against its competitors and ultimately monitor its capacity to generate returns for investors. The Company also believes that these non-GAAP financial measures are useful supplemental information for investors and analysts to assess its operating performance without the effect of items like share-based compensation, income or loss from equity method investments, net of impairment, and fair value changes in investments, net, which have been and will continue to be significant recurring items, and without the effect of gain on disposal of available-for-sale debt investments and impairment of available-for-sale debt investments, which have been significant and one-time items. However, the use of these non-GAAP financial measures has material limitations as an analytical tool. One of the limitations of using these non-GAAP financial measures is that they do not include all items that impact the Company's gross profit, income or loss from operations and net income or loss attributable to Phoenix New Media Limited for the period. In addition, because these non-GAAP financial measures are not calculated in the same manner by all companies, they may not be comparable to other

similarly titled measures used by other companies. In light of the foregoing limitations, you should not consider these non-GAAP financial measures in isolation from, or as an alternative to, the financial measures prepared in accordance with GAAP.
